

# WT-SC756 688KVA Technical Data sheet

## **DIESEL GENERATOR**

# **Powered by WINTPOWER Engine & WINTPOWER Alternator**

### STANDARD SPECIFICATION

Gensets model	Prime Power (50hz)	Standby Power (50hz)	Engine Model	Alternator Model
WT-SC756	688KVA/550KW	756KVA/604KW	SC27G900D2	WT354G560

### **General Features:**

 $\Delta WINTPOWER$  diesel engine made by WINT China, with radiator at ambient temperature 40°C, fans are driven by belt, with safety guard

ΔWINTPOWER Alternator with single bearing alternator; IP23 Protection, Insulation class H

ΔAir Filter,Oil filter and fuel filter fitted

ΔLube-oil drain valve fitted

ΔElectric Starter Charge motor 24 VD.C

**Δ Battery Charger** 

ΔOptional soundproof and weatherproof canopy

Δ3 pole MCCB Delixi breaker/Optional ABB

**ΔOperation & Maintenance manual** 

 $\Delta Accessory:$  A suit of ripple flex exhaust pipe; exhaust siphon, muffler; and a set of spare parts & Tools

 $\Delta$  The structure is built-up, the built-in residential muffler makes the noise lower.

ΔExhaust guide plate and air channel for air intake&noise reduction are mounted within soundproof canopies.

ΔOutside Emergency Stop Button.

 $\Delta$  8 Hours Base Fuel tank is equipped, With lifting ear and forklift slots. Outside fuel inlet/return, outside lub oil and coolant drain.

### Voltage Regulation:

Voltage regulation maintanined within ±0.5%

Between 0.8 and 1.0 lagging and unity

From no load to full load

At speed droop variation upto 4.5%

### **Frequency Adjustable Ratio:**

Change load from 0-100%, within 1.0% (electric speed regulator), within 4.5% (mechanical speed regulator)

### **Frequency Undulation:**

load from 0-100%, frequency undulation within 0.25%

No load wire volts max undulation ration\ within 1.8%

Three Phrase balanced load in the order of 5%

#### Note:

1)The engine performance is as per GB/T2820/Ratings are based on GB/T1147.1.

2)Prime Power (PRP): Prime power is available for continuous 12-hours running, in accordance with GB/T2820, ISO8528; A 10% overload capability is available for a period of 1 hour within a 12-hours period of operation. Standby Power Rating (ESP): The standby power rating is applicable for supplying emergency power. No overload, soundproof gensets only run under rating power.

3)Standby power is available in the event of a utility power outage or under test conditions for up to 200 hours of operation per year. The permissible average power output over 24 hours of operation shall not exceed 80% of the standby power rating.

## **Sales Promise:**

- (1) All the gensets are tested on load before they leave factory, various kinds of functions are tested . and test reports are provided.
- (2) Warranty for all of our gensets and accessories is according to our standard conditions since testing: 24 months or 1500 running hours accumutively, subject to the earlier, kindly refer to our service terms.

## **Engine Technical Data Sheet**

WHITE CWEIK. W10040000		
Δ Bruxhless,self exciting	Exciter	Brushless
∆ class "H" insulation	Cooling Fan	Cast alloy aluminum
Δ Standard degree of protection is IP23	Bearing	Single,double shielded
△ self regulating	Windings	100% copper
Δ With fan cooling	Connection Type	Reconnectable
Δ Resist Humid grease	Insulation Type	Class H
Δ AC excitation,roating rectification tube	Pitch	2/3
Δ Stator grease insulation covered	Amortisseur Winding	Full
Δ Rotator and exciation high polymer,Resist the corruption of	Voltage Regulator	AVR SX460
oil and acid	Voltage Regulator NL-FL	±0.5%
△ Rotator ballance is in accordance with BS5625 standard	Underspeed Protection	Standard
12.5	Overexcitation Protection	IP23
Δ High-quality lubrication sealed long-time bearing	TIF (1960 Weightings)	<50
Δ Rotator sillicon steel close tight	<b>Exciation System</b>	SHUNT

#### Control Panel - DEEPSEA DSE4620

The base mounted control panel in a vibration isolated sheet steel enclosure. The control panel is equipped a) Instruments: Analogue Volmeter, Hours Run Meter. Water pressure Meter.

- b) Controls: Emergency Stop Pushbutton, Volmeter Phase Selector Switch.
- c) Control module: Standard collocation is DEEPSEA DSE4620

**DEEPSEA DSE4620 CONTROLLER** 

### **Main Features:**

- Δ Automatic or manual start/stop of the genset
- Δ 3 phase AMF function
- Δ configuration analog inputs
- Δ Configurable programmable binary inputs and outpu
- Δ Warm-up and cooling functions
- Δ Battery voltage, engine speed measurement
- **△ Modem communication support(IL-AMF25 only)**
- Δ RS232 interface
- Δ Support of engines equipped with Electronic Control Unit
- (J1939 interface)
- Δ Graphic back-lit LCD display
- $\Delta$  Comprehensive diagnostic messages; SPN/FMI codes; KWP2000 Support
- Δ 6 LED indicators
- Δ Sealed to IP65
- $\Delta$  Generator C.B and Mains C.B control with feedback and return timer

### Optional AIK1 (AISIKAI) Automatic Transfer Switch Without/With Cabinet

The Automatic Transfer Switch Without/With Cabinet Main Function as follows:

ATS can automatically transfer load between the main power and the emergency power(generationg set) without operator. When the main power fails or voltage drops below 80% of normal voltage, the ATS will start emergency generating set after a preset time 0-10 seconds (adjustable), and transfer the load to emergency power (generating set). Contrarily, when the main power revovers normal, the ATS will transfer the load from the emergency power (generating set) to the main power, and then stop the emergency power (generating set.)

Optional 1-ATS without Cabinet ( Can be installed on the control panel Directly)

Δ Small Size/Operator conveniently

Δ ATS 63A-1100A with Economical Cost

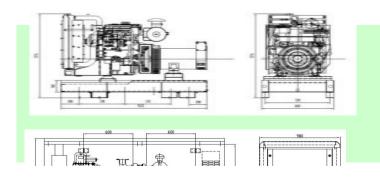

### **Optional 2-ATS With Cabinet**

ΔMains on lamp
ΔMains on load lamp
ΔGensets on lamp
ΔGensets on load lamp
ΔMode Transfer Switchr
ΔEmergency Stop
ΔATS 63A-3200A

## Sound Attenuated Enclosure/Option

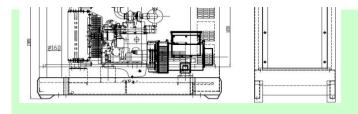

### **Robust Corrosion Resustant Construction**

Δ Black finish stainless stell lock and hinges Δbody made from steelcomponents treated with

**Excellent Access for Maintenance** 

Δtwo large doors on each side

Δradiator fill access plate
Δlube oil and cooling water drains pipes to exterior of the enclosure

### **Security and Safety**

**Δcontrol panel viewing window in a lockable access door** 

Δemergency stop push buttom (red)mounted on Δcooling fan and battery charging alternator fully Δexhaust silencing system totally enclosed for

**General Information** 

## **Wiring Diagram And Testing**

A full set of operation and maintenance manuals and circuit wiring diagrams.

Ambient temperature: -25°C to 45°C.The coolant heater is needed when the temperature is below 5°C

Humidity: Less than 80%.

Inspection items

Protection devices working test

Starting ability in normal temperature

50% rated power load moment capability

Voltage deviation and speed variation: 0%, 25%, 50%,

The customer could also choose the color which the manufacturer offers

Offer a range of optional features to tailor our generator sets to meet your power needs.

### **Options**

50°C High Temperature ● Permanent Magnet Gen ● Auto Control Panel ● Daily Fuel Tank Radiator -erator (PMG) ● Auto Transfer Switch(ATS) ● Base Fuel Tank

Water Separator ● Anti Condensation Heater ● Trailer Type

Water Jacket Heater ● Drop CT(For Paralleling) ● Manual Paralleling System ● Automatic Input System For

Oil Heater • Auto Paralleling System Fuel

Oil Discharging Pump ● Electronic Indicator for● Maintenance Tools Fuel Level ● Accesory Bag
